Special Education Services Parent Survey 2012-2013

All parents of Indiana students receiving special education services should receive a paper survey sometime during the second week of April 2013. This confidential survey will take five minutes to complete and measures parent satisfaction with their experience in working with education staff at their children's school and the special education services their children receive.

Parents will receive a survey in a white business-sized envelope from their children's school, either by mail or in person. Some surveys may also be sent home with the children receiving special education services. **Even though parents will receive a paper copy of the survey, parents with Internet access are encouraged to complete the survey on-line by going to <https://survey.wested.org/s3/inps>.** Parents with more than one child receiving special education services should complete one survey per child. Additional paper surveys are available to parents from their children's school.

If parents do not receive a survey by April 17, 2013, they should complete the survey on-line or request a paper survey by contacting the person at their children's school responsible for overseeing the special education services their children receive. **Completed surveys should be completed on-line or mailed by May 30, 2013.**
